

Volunteer Opportunities

- Sewing Instructors
- Product Designers
- Sewing Mentors

Would you like to be creative with a new group? Do you like to share your knowledge? Would you like to work in a space where there is machines, fabrics and trims available and ideas flowing?

The “Drop-In Sewing Circle” is a weekly opportunity for newcomer women to come and learn sewing machine basics, work on their own projects or learn to make a new item with others.

We are looking for sewing enthusiasts to join the “Drop-in Sewing Circle” volunteer team to facilitate the weekly time and coach the attendees to learn new methods and quality standards. As the newcomer women who attend this circle have unique creative skills (handwork, beading, embroidery), it is also an opportunity to exchange knowledge and together design new products.

If interested to join the volunteer team, please send an email to anne.lydie.bolay@cmwi.ca describing your experience and skills which you can bring to the program.

The Cutting Edge

IMPACT STATEMENT

To provide newcomers access to a “toolkit” that increases their employment opportunities.
